How to set the hard drive overwrite for a QS494,QS458, QS524, QS558, QS4716, and QS4816 DVR

Step 1: Go to the DVR itself, and Navigate to the Main Menu.

Step 2: Click on “Disk”

How to set the hard drive overwrite for a QS494,QS458, QS524, QS558, QS4716, and QS4816 DVR

Step 3: Select one of the following:

- Overwrite by Capacity – The DVR will record until the drive is full. Once the drive is full, the oldest video on the DVR will automatically be over-written and recycled, recursively (RECOMMENDED).

- Overwrite by Days – Any video older than the number of days specified will be automatically recycled.

- Never – DVR will cease to record once the drive is full.

Step 4: Click “Apply”

Step5: Then click “Exit”
